Pansies and Violas

It is now time to plant the new crop pansy and viola seed for late fall and next spring's bloom. This should be done not later than August 10th. This applies also to the delphinium seed listed below.

Seed of either of above two varieties, 400 for 50¢.

GREATER AMERICA--Very early, compact and loaded with bloom. Has a complete color range, though only a few white. 500 seeds 50¢.
